Story Boards		
Faces Course (Boss dal.)		
Focus Groups (Breadth)		

- 4. What materials and expertise will you require and who will provide it? For example:
 - If you need a camera, video camera, or space to interview, do you already have these, or will you need to make arrangements to get these?
 - If you plan to film, do you have in-house editing expertise, or will you need to make arrangements to access this expertise?
 - Do you need to work with communications internally or externally to create posters or pamphlets?
 - Do you have appropriate space for interviewing individuals or holding focus groups?
- 5. How will you know that change is an improvement? What qualitative measures will you use, how will you display the information, and how frequently will you collect data?
