

The North Simcoe Muskoka Local Health Integration Network (NSM LHIN) is one of 14 local organizations that have been created in Ontario to plan, coordinate and fund local health services, including hospitals, long-term care homes, community health centres, community support service agencies, and mental health and addictions agencies. The office of the North Simcoe Muskoka LHIN is located in Orillia, Ontario. Each of the province's 14 Local Health Integration Networks (LHINs) is subdivided into smaller regions generally referred to as Sub-LHINs. In North Simcoe Muskoka, the Sub LHIN regions are Barrie and Area, South Georgian Bay, North Simcoe, Muskoka and Couchiching.

The NSM LHIN is home to close to 453,710 people and encompasses the District of Muskoka, most of the County of Simcoe and a portion of Grey County. Responsible for \$850 million in funding to allocate amongst 61 unique health service provider organizations, North Simcoe Muskoka residents have benefited from numerous LHIN programs and initiatives.

The recently passed Patients First Act, 2016 will expand the mandate of the LHIN to include responsibility for organizing, managing, and delivering home and community services previously delivered by the Community Care Access Centres, primary care planning, sub-regional health care planning and integration, and creating more formal relationships with Public Health.

The NSM LHIN is looking for professionals with the right skills to work with their multi-disciplinary teams to use best practices and leading edge approaches to meet their populations' health needs today and in the future.

Clinical Lead, Barrie and Area Sub region (Part Time Position - 1 day per week)

The Clinical Lead, Barrie and Area Sub-Region, will be responsible for local quality initiatives, working closely with primary care providers, inter-professional teams, and administrative leads in the LHIN sub-region to achieve provincially defined performance metrics, and to develop a more integrated network of care at the sub-region level, including primary care, public health, home care and community care, mental health and addictions, long-term care, and acute care.

As a respected clinician in the community, this individual will provide leadership for local clinical engagement within the sub-region and will advise the LHIN senior leadership team, participate in local planning tables, and work collaboratively to improve care for the population of the sub-region and the LHIN.

DUTIES AND RESPONSIBILITIES:

Quality Improvement and Sub-Regional Planning

- Work closely with sub-region Directors of System Transformation and Home and Community Care to oversee quality improvement, patient safety and performance management within LHIN sub-region.
- Support the design and implementation of the LHIN primary care strategy within the sub-region in collaboration with other LHIN Clinical Leads, LHIN staff and other partners.
- Champion clinical standards of care and lead clinical change management at sub-region level.
- Monitor performance indicators for the sub-region and work with LHIN staff to review and analyse health care service data and trends, including access to primary care, access to care post hospital discharge, avoidable ED visits, and others.

Relationship Management and Collaboration

- Act as a liaison between the NSM LHIN and primary care physicians and other providers in the region.
- In collaboration with the sub-region Directors of System Transformation and Home and Community Care, facilitate and actively involve local health care providers, through targeted outreach, and create opportunities to collaborate on integration and improvement initiatives that build lasting linkages between providers.
- In collaboration with the sub-region Directors of System Transformation and Home and Community Care, build a culture where patients, families, and caregivers have a voice and the community remains at the heart of discussions and decisions.
- Champion high-quality and safe care in the region and work collaboratively with all members of the health care team across all sectors (primary care, public health, home care and community care, mental health and addictions, long-term care, and acute care) to improve quality care and population health of the LHIN.

Advancing LHIN Strategies & Priorities

- Support development of, and participate in, regional and sub-regional governance structures and committees.
- Support the VP Clinical and other LHIN executive team members on development of sub-region health human resources planning.
- Provide advice to the VP Clinical and other LHIN leadership team on local engagement strategies, change management activities, performance measurement, physician education, and other opportunities to promote a continuous quality improvement culture in primary care and across sectors in the sub-region.

Quality and Risk Management

- Champions the desired organizational risk management tone and culture.
- Integrates sound risk management practices into the business processes and day-to-day decisions responsible for.
- Reports risks with causes, impacts or mitigations beyond scope of responsibility to senior management.
- Supports the participation of staff in learning opportunities to build competencies.

Credentials

- Active clinician
- Currently working in clinical practice within the region, and willing to maintain clinical practice if successful in achieving the Sub-Region Clinical Lead position
- Formal leadership training and change management would be an asset
